How to Create a Discord Bot

Open the Discord Developer Portal:
Go to https://discord.com/developers/applications

Create a New Application:
Click on New Application to start creating your bot.

Name Your Application:
Choose a unique name for your bot.

Upload a Logo or Banner (Optional):
Customize your bot by uploading a logo or banner.

Write a Bio (Optional):
Add a description to give your bot some personality.

Set Up the Bot:
Go to
https://discord.com/developers/applications/1302618320343928894/bot

Enable Privileged Gateway Intents:
Toggle on the intents you need (e.g., for tracking messages or reactions).

Generate and Copy Your Bot Token:
Click Reset Token to create a new token, then copy it securely (you'll need it to run your bot).

Join the Support Discord:
Join our discord server https://discord.gg/reRhTRgeBm.

Open a Support Ticket:
Once verified, open a ticket in the support server, and our staff will guide you through the remaining steps.
